# Upgrade

YOUR LIFE WITH ENHANCED COMPATIBILITY\*

Enjoy total movie indulgence in 27 video formats\*\* with the new Power TV – PB10 and PS10!

With playback compatibility of 27 video formats, you can now playback most of the popular video formats commonly available in the market for greater sharing convenience on various model sizes.

PB10 and PS10 are the latest addition to the Power TV family that can now bring you and your loved ones to a whole new level of home entertainment. You can now enjoy your favourite video collection in the most stylish and hassle-free manner – Simply plug and playback directly from your USB flash drive.

What's more, the new PB10 and PS10 can even work with 4 Audio Formats (MP3, MP4, WAV and WMA) and JPEG playback to allow hassle-free playback of songs and music directly from a flash drive, or viewing photos and re-collecting fond memories of your recent outings with you and your loved ones.

\* Subject to hardware and software specifications.

\*\* Combination of 27 video formats in the following media formats (AVI, PS, TS/TP, VOB, MOV, MP4, ASF/WMV, DivX, Xvid, MKV, RMVB, FLV, 3GPP, M-JPEG) in various video codec. Please refer to Owner's Manual for more details.

## Make Your Choice to Upgrade Your Life

Power TV, the new family member of Toshiba REGZA LCD TV, is power-packed with practical features in an elegantly crafted slim exterior. The Power TV comes in 3 series – Power Booster, Power Saver, and Power Charger. These entire 3 series share Toshiba's proprietary Power Meta Brain video engine featuring 10-bit video processing, as well as a host of excellent TV features. Nonetheless, each series possesses strong individual characteristics.

**Power Booster series (PB10/PB1)** features power boosting functions both in video and audio quality.

**Power Saver series (PS10/ PS1)** features power saving functions that enriches your eco-friendly lifestyle.

**Power Charger series (PC1)** features the world's first 24" LED LCD TV with battery operation.\*

In addition, the PB10 and PS10 both possess USB Movie playback feature, opening up a fantastic range of video formats for you to choose from!

# PB10 POWER BOOSTER

The latest member in the Power Booster series (PB10) lets you enjoy that gratifying sight and sound with almost any movie of your choice, thanks to the USB Movie compatibility feature which opens up 27 different video formats for selection. From the classic AVI format to the ubiquitous MKV, there's a wide selection of video formats that are available for you to watch on this Power Booster!

The PB10 series also supports 4 audio formats and JPEG format to give you the flexibility to do more than what can usually be done with a TV – you can simply playback your favourite songs or view your photo collection directly from a USB flash drive.

The enhanced features of 2 HDMI™ terminals and powerful 20W built-in audio speakers boost your viewing experience to a higher level. What's more, the Optical Digital Audio Output and Analogue Audio Output further enhance your TV for the connection of Home Theatre System.

**USB

**27** VIDEO  
FORMATS

Specifications may vary according to models.

# PB1 POWER BOOSTER

The Power Booster series (PB1) lets you enjoy great quality picture and powerful sound without a bulky exterior. The built-in Auto Signal Booster improves sensitivity to weak radio frequency (RF) signal. Image becomes clearer when the RF signal is strengthened especially in poor signal reception areas. Enhance your viewing experience further with our 20W high power audio speakers, up to 3 times more powerful than most 24" LCD TVs in the market.

Specifications may vary according to models.

# PS10 POWER SAVER

Enjoy your viewing experience and save on power consumption with the upgraded release of PS10 series. The new Power Saver series is equipped with the USB Movie compatibility feature to allow you to watch up to 27 video formats, listen to audio contents in 4 audio formats and share your photo collection in JPEG viewer. You are free to enjoy a convenient multi-media lifestyle.

The new Power Saver series (PS10) is presented in an LED LCD TV that utilises edge LED Backlight with AutoView and ECO modes for optimum picture contrast and energy efficiency.

The 2 HDMI™ terminals allow for greater connectivity of your HD video and audio equipment to the Power TV. Moreover, the powerful 20W built-in audio speakers together with the Optical Digital Audio Output and Analogue Audio Output complement your audio experience.

Specifications may vary according to models.

# PS1 POWER SAVER

The Power Saver series (PS1) is a LED LCD TV that utilises edge LED Backlight with AutoView, Toshiba's advanced solution for optimum picture setting and power saving. AutoView is able to control and adjust the backlight and various picture parameters to achieve optimum contrast according to room lighting condition. Together with the LED Backlight panel, this feature helps to reduce the impact on our environment with the reduction in power consumption. Furthermore, the LED Backlight panel gives the TV an amazingly slim profile, making it a beautiful addition in any room.

Specifications may vary according to models.

# PC1 POWER CHARGER

The star of the Power TV lineup, the Power Charger series (PC1) is the world's first LED LCD TV specially designed with battery operation function\*. Thanks to the low power consumption of LED Backlight panel, the rechargeable battery pack provides up to 2 hours\*\* of viewing pleasure after fully charged. Normal TV operation is able to continue seamlessly during power downtime. The Power Charger is your exclusive channel to uninterrupted entertainment in the event of power failure.
